SUMMARY

I am passionate about developing seamless user-friendly web applications. My technical skills include HTML, CSS JavaScript, Bootstrap, React JS, Java, Hibernate, Spring boot, MySQL, and other frameworks. I have honed these skills as a Java Full Stack Developer Intern at ExcelR.

EDUCATION

B. TECH, Electronics and Communication Engineering May 2024
Aditya College of Engineering, Surampalem 8.03 CGPA

Intermediate, MPC April 2020
Sri Surya Junior College, Jaggampeta 9.86 GPA

SSC April 2018
Z P P High School, Mallisala 9.7 GPA

TECHNICAL SKILLS

Languages: Python, Java, Html5, CSS3, JavaScript, Node Js,
Frameworks & Tools: Express Js, React Js, Redux-toolkit, Tailwind CSS, Spring boot, Jpa & Hibernate
Databases: SQL, MongoDB

INTERNSHIPS

ExcelR: Java Full Stack Intern Apr 2024 – Oct 2024

- Throughout the internship, I learned a lot about creating and managing web apps with HTML, CSS, and JavaScript on the front end and Java, Spring Boot, and MySQL on the back end.
- Developed practical expertise in REST API implementation, full-stack solution development, database query optimization.
- Delivered effective and scalable software solutions by working with teams.

PERSONAL PROJECTS

Car Rental Website / React Js, Express Js, Node Js, MongoDB *Feb 2023 – Mar 2023*

- This innovative real-time car rental application offers a seamless user experience. GitHub
- Users have the convenience to create their accounts, effortlessly book their preferred vehicles, and manage their booking details.
- Built secure user authentication and authorization in **Express Js**, ensuring protection for pages that require login access.
- Developed an admin dashboard to efficiently manage car bookings.
- **Live Demo:** https://digicar-rentals.vercel.app/

Personal Portfolio / React Js, Tailwind CSS, Chakra UI, Email JS *Dec 2023*

- Personal portfolio website is a digital platform that showcases my skills, accomplishments, and experiences. GitHub
- It serves as an online resume and portfolio, allowing professionals to highlight their work to potential employers, clients, or collaborators.
- Utilized **Tailwind CSS** for styling web pages and **Chakra UI** for pre-built, reusable components to enhance development efficiency.
- Integrated **EmailJS** to enable recruiters and clients to send emails directly through the application.
- **Live Demo:** https://siva-prasad-gandepalli.netlify.app/

Gemini AI Clone / React Js, Tailwind CSS, Gemini API, React Hooks *Jan 2025*

- This advanced AI chatbot delivers real-time intelligent responses, offering a user experience similar to Google's Gemini AI. GitHub
- Users can engage in dynamic AI conversations with a seamless and interactive UI. Implemented real-time AI responses, ensuring fast and accurate interactions.
- Built with **React.js**, **Tailwind CSS**, **React Hooks**, and **Gemini API** for a responsive and efficient experience.
- Designed a **responsive UI** for smooth usage across all devices. Hosted on **Vercel** for easy access and deployment.
- **Live Demo:** https://gemini-clone-seven-mu.vercel.app/

Employee Management System / JSP, CSS, Java, Hibernate, Spring Boot, Spring Security, MySQL. *Sep 2024 –Oct 2024*

- Employee management system is software used to manage employees in an organization. GitHub
- This consists of two modules, Admin and Employee. Admin have powers to add, delete, edit, and view employees.
- Employee can login to his account and view all his details and also download his last six months' salary pay slips.
- It was a team-based project consisting of 9 members, where I served as the lead for the backend development team.

CERTIFICATIONS

- I have successfully completed the **JavaScript** certification from IT specialist.
- I have successfully completed the Programming Essentials in **Python** from Cisco Networking Academy.
- I completed the **Java** Foundations course and obtained a certificate from Oracle Academy.

ACHIEVEMENTS

- Completed over 300+ problem-solving challenges on Leet Code.
- Successfully tackled over 200+ problems on GeeksForGeeks.
